

STATE ENGINEER MONARCH
OF ALL HE SURVEYS NOW

PHOENIX, Aug. 19.—State Engineer Atwood returned from a tour of the state highways on Friday. He found that they had suffered little from the recent floods, thanks to the system of drainage that had been followed in the construction of the roads. The county roads he found in rather bad shape from the floods. Many of the roads had been only located and had never been constructed. They were trails that had been taken over by the counties.

Mr. Atwood visited the highway in Mohave and Coconino counties and he went thence into Gila by the way of Roosevelt. He visited the convicts camp in Greenlee county where two men are at work. He said he had never seen a camp of paid or contract workmen that took a greater interest in their work or were doing better work than those convicts.

Road Work Progresses

They have a stretch of 22 miles of road well on toward a completion. A bridge is also being built across the Gila river miles west of Clifton. When it is completed, with the new highway that is being constructed, the Arizona county of Greenlee for the first time will have an outlet into Arizona. At present its natural relation with New Mexico is much closer than its relation to Arizona. And especially in flood time, a citizen of Greenlee can reach no point in Arizona outside the county without a long detour through New Mexico.

ACCIDENTAL DEATH
AT WILLCOX

Tatum Gandy, a rancher of Wilcox, was accidentally killed at his home Saturday afternoon, when the full charge of a shotgun entered his back at the left side and caused death instantly. According to Chas. Sanders and wife, Etta Sanders, Frank Sanders and A. S. Cook, relatives of the deceased, he had been lying on the couch on the front porch, and having been previously shooting hawks that had been marauding the chickens on the ranch, had rested the gun against the vines on the porch and had fallen asleep. His wife, who formerly resided in Tombstone, heard the shot and rushing out found her husband in death. Two of the small children who had been playing there could give no account of the accident, and it is believed the gun either fell from its position or one of the children knocked it over causing the deplorable accident. He leaves a wife and three children and had resided in Wilcox for the past 15 years. He was well known here.

HUMBOLDT IS A LARGE
PRODUCER OF COPPER

HUMBOLDT, Aug. 17.—The Consolidated Arizona smelting company has entered the field of large producing companies of the state. The bullion production of the Humboldt smelter during the month of July was 1,439,000 pounds of copper.

The Blue Bell and De Soto mines, operated by this company, shipped to Humboldt a total of 16,000 tons of ore.

The concentrating mill tested 896 tons of ore and concentrates while the charge of new copper bearing material to the smelter at Humboldt amounted to 12,700. This was with only one reverberatory furnace in operation.

FLAGSTAFF BOY LISTED
AMONG U. S. WOUNDED

WASHINGTON, Aug. 11.—The army casualty list today issued in two sections, contained a total of ninety-eight names. The navy department did not issue a marine corps list. The army list was divided as follows:

Killed in action, 18; wounded severely, 70; missing in action, 10; total, 98.

The second division of the army casualty list, issued late today, contains the names of forty-five reported severely wounded and ten reported missing in action. Pantalion Griggs, Flagstaff, Ariz., was reported severely wounded. The list included no others from Arizona, Colorado, New Mexico or Texas.

VOTING RULES

STRETCHED OUT
PHOENIX, Aug. 19.—Citizens of Arizona, who, because of residential and age limitations, have been unable to vote in state elections in the past, will be counted as qualified electors in the coming primaries.

The two classes of citizens affected by a ruling just handed down by one attorney general's office, are those who will not have lived in the state by the time the primaries are held but will have had a year's residence by the time the general election is held. The second class is those who will not be 21 years of age at the time of the primaries, but who will be 21 years of age at the time of the general election. Both of these classes may now register at the primaries and vote in the election, having been classified as qualified electors.

The ruling written by assistant attorney general F. J. K. McBride, is as follows:

In reply to your question, you are advised that a citizen of the United States who has not resided in the state of Arizona at least one year prior to the primary election, but will have been a resident of Arizona one year on or prior to the date of the general election in November, is a qualified elector of Arizona and entitled to vote at the general primary election.

While you have not included in your question, you are advised further that one who would become of age that is 21 years of age, on or prior to the date of the general election held in November, would be a qualified elector of Arizona, entitled to register, vote in the general primary election and also in the general election.

The need for such a ruling has long been felt in Arizona and has been generously criticized by new arrivals in the state inasmuch as the above ruling has been in effect in many of the states for years.

THOSE REACHING 21 SINCE
JUNE 5 MUST REGISTER

Every male person in the United States who has attained the age of 21 since June 5, this year, is required to register under the provisions of the selective draft next Saturday, August 24. There are a few of these in Tombstone and their attention is called to the following order issued by Provost Marshal General Crowder and sent to Ray B. Krebs, secretary of the Cochise county local extension board.

"All male persons who have reached their twenty-first birthday since June 5, 1913, and on or before August 24, 1913, must register on August 24, 1913. These men should consult with local draft boards as to how and when they should register."

BUMPED OFF THE
TRACK BY TRAIN

PIMA, Aug. 19.—Earl Larson of Glenburn, had a narrow escape from death last Saturday afternoon while endeavoring to cross the railroad crossing just east of town in a striped Ford.

Mr. Larson was coming this way in his car and states that he did not see the incoming passenger train nor did he hear it. Just as he was on the track, he says, the big engine loomed up in front of him. The next thing he knew he and his car were in the air.

LEAGUE TO ENFORCE PEACE
TO BE FORMED IN TUCSON

TUCSON, Aug. 17.—A state organization of the National League to Enforce Peace will be formed here. The first meeting will be held September 7, possibly with the membership of the state council of defense participation. Secretary Wm. S. Short, of the national league, will be here, as well as others of national fame. Arizona members include president R. B. Von KleinSmid, of the University of Tucson; former Gov. Thos. E. Campbell and Gov. G. W. P. Hunt.

PATENT GRANTED

Hazard and Miller, the pioneer patent agency of Los Angeles, send word that they received a wire from Washington notifying them that a patent has been granted to Charles C. Poers of Williams, Arizona, for a heater.

COCHISE COUNTY HAS
LOWEST TAX RATE

Once again Cochise county with the highest assessed valuation in the state of Arizona, leads over other counties in the state with the lowest tax rate in the history of the county.

This was arrived at this afternoon at the meeting of the Board of Supervisors held for the purpose, when that body set the tax rate for the year 1913 at 14 cents on the \$100 valuation. This is 15 cents lower than last year which was the lowest rate in the state, and much lower than the year previous.

Cochise leads all other counties in the state with a valuation of \$169,348,466.17, as equalized by the state board of equalization, following the action of the Cochise County Board of Equalization, which was in session in July, practically no changes having been made by the state board on the figures as fixed by the Cochise board.

These figures, when taken into consideration will affect thousands of dollars savings to the taxpayers, and shows that the board of supervisors are conducting the county in an economical manner, as well as other county officers, and speaks well for the expenditure of county monies, which come under the administration of the board, amounting to almost a million dollars annually, including roads, etc. The drop from 84 to 74 cents in the rate will mean that a man with a property valuation of \$1,000 will only pay this year \$7.40 taxes where last year he would have paid \$8.40, and in previous years considerably much more.

To the taxpayer who annually has had to pay his proportion of revenue to the county and state, these figures will prove of interest, especially during a time now when he is being helped with war necessities and subsequent high cost of living.

For the past dozen years Cochise county had led all counties in the state with assessed valuation, due to her taxable producing mines, and the rate has been gradually lowered, especially since the advent of statehood. And in lowering the rate the supervisors have been responsible, of course, since it is through their hands that the expenditures, on which the budget for the purpose of taxation is fixed. This has been kept down to the lowest standard possible, as the rate as fixed today will show.

WHISKEY PRICE

IS SOARING HIGH

DOUGLAS, Aug. 19.—From information gleaned by the local authorities from "drunks," the price of whiskey in Douglas ranges all the way from six dollars to eight dollars a pint with gloomy prospects of a decline. One man says he paid six dollars for a pint, another had to dig up eight, while one man could not buy a second pint at ten dollars, although he was positive that the man he approached had some for sale. It is said that the standing of the man in the eyes of the bootlegger has a great deal to do with the price he has to pay. A regular state customer, who can be depended upon to keep his lips sealed in regard to the source of the booze will get his liquor at a rock bottom price, but an "unknown quantity" in the shape of an "ale bound" will have to do some tall hustling and pay the limit if he gets hold of any whiskey.

New Mexico will go dry October 1. El Paso already is dry—and whiskey is more than six dollars a pint in the Paso City—and it will be a very expensive thing to bring in whiskey within the next 45 days. Owing to the vigilance of local officers, there is small tendency on the part of the liquor runners to hoard away a supply of booze for sale at a big profit after Rodeo passes from the map as a supply station.

RESTAURANTS AT JEROME

ORDERED TO CUT PRICES

PHOENIX, Aug. 17.—The state food administration has ordered the restaurants of Jerome to return to the prices that were in effect last month. It appears that food prices were raised in the camp at the same time a raise in miners' wages became effective, this resulting in much complaint from the workmen and a threat of a strike of the cooks and waiters unless their wages, too, were given a boost.

JACK WHITE OUT FOR
STATE MINE INSPECTORSHIP

PHOENIX, Aug. 11.—John B. better known throughout Arizona as "Jack" White, will be the republican candidate for state mining inspector and his friends say that whatever may be the normal democratic majority in the state, he will be the mining inspector after January 1 of next year.

He has made a record as a candidate that has been unsurpassed in Arizona. He served for five years as a republican sheriff of the democratic rock-cracked county of Cochise and it was in the time when it was most rock-cracked. He was a good sheriff and he might have continued in that office indefinitely, but before he became a sheriff he was a mining man; that is a worker in mines, and then the owner of small mines in which he employed other men.

UNIVERSITY OF ARIZONA

NOW TRAINING CENTER

WASHINGTON, Aug. 17.—Acceptance today of 15 additional colleges as training centers for soldiers in the students' army training corps brought to 257 the number of such institutions ready for organization and enrollment. Details of the plans for the corps with relation to the new draft law will be made known soon by the war department.

FOR SALE—Section of Deeded Land and Homestead of 146 acres re-enclosed. Two miles northeast of Brough Wells. All fenced and plenty of water. Address M. W. Fuhrman, Webb Postoffice, or call at the farm.

FOR SALE—Well drilling machine, complete, engine, cable, drills and all also some 5 1/2 in. casing and 4 in. piping, all in good condition. L. A. Hoesdicker, Turner, Ariz.

Catarrhal Deafness Cannot Be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflammation of the mucous lining of the Eustachian tube. When the tube is inflamed, it prevents a normal sound or vibration from passing into the middle ear. It is a constitutional disease, and the only way to cure it is by a constitutional remedy. Catarrhal Deafness is a disease of the blood, and the only way to cure it is by a blood-purifying remedy. Catarrhal Deafness is a disease of the system, and the only way to cure it is by a system-purifying remedy. Catarrhal Deafness is a disease of the body, and the only way to cure it is by a body-purifying remedy. Catarrhal Deafness is a disease of the soul, and the only way to cure it is by a soul-purifying remedy.

Replication

NOTICE OF SELECTION UNDER SECTIONS 2275 AND 2276, U. S. REVISED STATUTES AS AMENDED BY ACT OF CONGRESS, FEBRUARY 28, 1891. (Paragraph 9 et seq. Rules Approved April 25, 1907) AS EXTENDED TO THE STATE OF ARIZONA BY ACT OF CONGRESS, APPROVED JUNE 20, 1910

UNITED STATES LAND OFFICE,
AT PHOENIX, ARIZONA

State of Arizona

TO WHOM IT MAY CONCERN:

Notice is hereby given that the State of Arizona has filed in this office its School Indemnity Land Selection List No. 1893, Serial No. 938164, applying to select as indemnity the following described lands, to-wit:

List No. 1893, Serial No. 938164: In T. 19 S. R. 25 E. NW 1/4 Sec. 7; In T. 19 S. R. 24 E. NE 1/4 Sec. 12. (All in G. & S. R. M.)

During the five weeks' period of publication of this notice, or any time thereafter and before final approval and certification, this office will receive protests or contests as to any of the tracts applied for and transmit the same to the General Land Office.

Dated at Phoenix, Arizona, July 13, 1913.

J. L. IRVIN, Register.
SCOTT WHITE, Receiver.
Date of first publication August 4, 1913.
